The 546 combined wins are the most of any head coaching match-up in the history of the Minnesota High School All-Star Football Game. Counting their 2017 records, they are a combined 631-281-5.

Through 2017, Stolski and Nelson have coached a combined 85 players that have played in the Minnesota All-Star Football Game.

28. Player versus Coach?

There have been several instances where a specific school was represented by a coach on one team and a player on the opposing team. In two different All-Star Games, an All-Star head coach actually coached against his starting quarterback from the previous season:

1975 Bob Beliveau, Alexandria, South, QB
1975 Ed Christopherson, Alexandria, North, Head Coach

1976 Joe Smith, Richfield, South, QB
1976 Dick Walker, Richfield, North, Head Coach

In the 1976 game, Joe Smith threw three touchdown passes against his former high school coach (setting an All-Star Game record in the process).

The other player versus head coach situations occurred in these All-Star Games:

1974 Dan Schmidt, Minneapolis Patrick Henry, South, Guard
1974 Don Swanson, Minneapolis Patrick Henry, North, Assistant Coach

1978 Ed Bifulk, St. Thomas Academy, North, RB
1978 Gerry Brown, St. Thomas Academy, South, Head Coach
1978 Dan Porter, Minneapolis Washburn, South, Guard
1978 George Wemeier, Minneapolis Washburn, North, Head Coach

2014 Peter Palacek, Stillwater, North, OL
2014 George Thole, Stillwater, South, Assistant Coach Retired

2015 Michael Lee, Dawson-Boyd, North, WR
2015 Cory Larson, Dawson-Boyd, South, Assistant Coach

Note: the possibility of having coaches and players from the same school on different All-Star teams existed from 1974 to 1978 because the team placement processes were different for coaches and players.

In these years, players were assigned to the North or South team based on a geographical dividing line or conference affiliation (Twin Cities area conferences were assigned to either North or South).

From 1974 to 1978, coaches who were selected as the "Coach of the Year" in each of the eight administrative Regions around the state were assigned to coach in the All-Star Game. The "Coaches of the Year" for Regions 1, 2, 3 and 4 were assigned to the South team. Regions 5, 6, 7 and 8 were assigned to the North team.

In the 1976 example above, Joe Smith played for Dick Walker at Richfield in the 1975 season. Walker was selected as the 1975 Region 5 "Coach of the Year" and was assigned to the 1976 North All-Star team coaching staff. Smith was selected as an All-Star player from Richfield. At that time, Richfield was a member of the Lake Red Conference. In 1976, Lake Red Conference players were assigned to the South All-Star team, creating the situation where the Richfield coach was on the North and the Richfield player was on the South.

29. How many coaches have opposed each other in one All-Star Game and coached together in another All-Star Game?

There have been seven combinations that have coached together and against each other in the All-Star Game. This occurred twice in the December 2016 All-Star Game (Jeff Ferguson/Mike Grant and Carl Lemke/Randy Strand):
